

# A GUIDE TO UNDERSTANDING THE MODEL AND CHASSIS NUMBERS

## TOYOTA SURF

For *certain* parts we may need further information about your vehicle. If your vehicle is UK spec then we will only require the chassis number. If your vehicle is an import we will require both the chassis number and the model number. The chassis number gives us the year of manufacture and the model number gives us the spec of the vehicle e.g. air con etc.

### Please note

All chassis numbers have 2-3 letters followed by 7 digits.

All model numbers have 2-3 letters followed by 2-3 digits, then 5-6 letters.

There are many of types of Toyota imports. This web site covers the most popular ones.
